# From Chairman's Desk

## Dear Prospective Students,

As Chairman & Founder of Gleneagles Global Hospitals Group, I extend you a hearty welcome on behalf of Global Hospitals & Health City, Institute of Allied Health Sciences, faculty & staff.

Profession in Healthcare has been revered in human society since time immemorial for its role in healing people. As there is an increase of hospitals and healthcare bases every year, there's a growing global demand for healthcare administrators. However the educational opportunities continue to be limited and costly forcing many of the candidates to choose alternate careers. We in Global Hospitals & Health City offer you a chance to fulfill your dream at affordable cost, and to take part in leading the current medical world into a better future.

It also heralds our vision, to become a global leader in healthcare and professional education. Our mission is to make a deep & everlasting impact on the minds and lives of students.

With the excellent healthcare delivery base, Global Hospitals group, which include the state of the art of quaternary care and multi-organ transplant centres, we provide an excellent teaching and training facilities that will enable our post graduates to become competent health care professionals.

A handwritten signature in black ink that reads "K. Ravindranath".

**Dr K Ravindranath**

Chairman and Founder  
Gleneagles Global Hospitals Group

# Welcome to Global Hospitals & Health City Institute of Allied Health Sciences

The entry of corporate groups in the Indian health industry has not just improved the quality of medical services but has brought in new career opportunities for graduates in medicine and its allied fields. As new private healthcare groups are entering the market and the existing ones expand their market in health care industry, there is a rising demand not only for doctors but also for hospital administrators to manage large hospitals. Now most of the hospitals/health care providers prefer to absorb MHA graduates with a background of medical Sciences, since they have clinical knowledge and practice. MHA (Master of Hospital Administration) prepares medical and allied health professionals to understand the principles of management and to apply the same when providing Quality Patient Care in selected areas of Clinical Speciality in the Hospital Community.

## VISION

To be a global leader in providing value-based integrated healthcare education and training

## MISSION

Foster world class knowledge for the enhancement of healthcare industry to make a difference in people's life

# About Us

Global Hospitals & Health City (GGHC) is the brain child of a visionary, Dr.K. Ravindranth, M.S., FRCS(Edin), FRCS(Glas) - Chairman & Founder – Global Hospitals Group, one of the pioneers in the country in Laparoscopic and Hepatobiliary Pancreatic Surgery, who established the Global Hospitals Group with a view to bring 'World Class Medical Care' to India and provide it at affordable costs to the ailing masses.

Started two decades ago in Hyderabad, today it has several hospitals spread strategically across the country with branches now in Bangalore, Chennai, Mumbai and many more in advanced stages of planning and implementation. Each one of them is a tertiary care multi speciality hospital with facilities matching the best in the world and offering advanced patient care of Singapore based multi-national corporation, which is a 60-year-old legacy of healthcare excellence, clinical expertise and customer service. The Global Hospitals Group is immensely proud to have the brand name “Gleneagles”.

Any college in Health Sciences which wants to impart best education to its students should have its own health care delivery partner in the form of a tertiary care hospital. Our NABH accredited hospital in Chennai, serves as a domain of knowledge and practical learning to the students of GHHC Institute which was started in the year 2010 as Global College of Allied Health Sciences in Chennai. Having established itself as the forerunner in realm quaternary care, this multi-super speciality hospital will provide endless learning opportunities. Moreover Global Hospital is the first corporate hospital to be recognized by the Government of India, for Research & Development.

# About the programme

## MHA (Master of Hospital Administration)

Based on the interdisciplinary nature of health services, this programme helps you to build your leadership and analytic skills while also building a solid professional network at a pace that is realistic and manageable. This programme focuses on real-world management issues, enabling students to immediately apply theory learned in the classroom to their current work environment. Students are introduced to a wide spectrum of health care issues including systems, legal and ethical concerns and information technology.

## Specific Objectives of the Course

To provide

- awareness of key leadership and influencing qualities
- knowledge of factors that facilitate complex change management
- knowledge for strategic view of the future and innovation in sustaining excellence in health care delivery
- political and Media 'Intelligence' and skills in gaining patient and public perspectives and confidence
- critical appraisal, reflexive and communication skills to develop managers, who understand, practice and promote evidence-based healthcare
